### Milam Cotton Acreage Up By Thousand Acres For '56

Milam Cotton Acreage Up 3-36  
Milam County cotton acreage allotments are up by more than 1,000 acres in 1956 over the 1955 allotment according to a county by county allotment release by the Texas Agricultural Stabilization and Conservation Committee recently.

The assignment of acres a highly controversial issue was ordered by the office of U.S. Secretary of Agriculture Benson.

The allotments were praised by East and Central Texas farmers and lambasted by West and South Texas cotton growers.

**Kept Secret**  
The acreages have been a closely kept secret for some time. Four West Texas farmers brought suit in federal court to restrain the committee from issuing allotments on a formula determined earlier by the committee.

At first, the ASC and the Agriculture Department announced the acreages would not be revealed pending decision on the federal court suit. However, Benson released them tonight.

West Texas farmers claim that the formula discriminates against

The seven-county Central Texas area will gain 13,168 cotton acres in 1956 over its 1955 planting under the acreage allotments released by the State ASC committee. West and South Texas, where cotton planting has been expanding into new territory.

### Bill Bailey Novel Has Setting Around Early Day Cameron

COME HOME BILL BAILEY is a book now on sale by the Naylor Publishing Company which has its setting in and around Cameron, Texas—the home of the author and his principle characters.

Oxshier Smith has the life history of the author tucked away in his memory and he gets a chuckle out of relating part of the early days when Jesse Wilkerson was just about as much "Mustang" as was the horse of which he tells in his intriguing story.

The story is of a boy and his horse, in the early part of the century. The horse, Bill Bailey, part thoroughbred and part mustang, was a handsome animal of uncommon intelligence and devotion—which of course, Jim Wilson, the boy, returned. Jim's life was an ideal one for a boy in that happy rural setting until he and Bill Bailey were caught up in the tensions, passions and tragedies of the adult citizens. Then was a time of heartbreak until he and Bill Bailey were reunited. This is a suspenseful, wholesome boy's story which should become a modern classic.

Jesse Wilkerson, the author has lived in Houston for 37 years. As a boy he worked as a printer's devil in Cameron. It was there he got the urge to write. He is married and has two children. This is his first novel.

The book can be bought for \$2.50, from Naylor Co. Box 1838, San Antonio 6, Texas.

### Milam Cotton Stalks Standing Dec. 16 Will Violate State Law

Midnight December 15 has been set by state law as the deadline for plowing under of cotton stalks or destroying them by use of the rotary type stalk shredder.

District Attorney Bob Nelson was called on by a representative of the U.S. Department of Agriculture last week and informed that in Milam County alone there are 114 fields where stalks still standing and that the U.S.D.A. is merely acting an advisory capacity in pointing out the law of the State of Texas to farmers. ### Yoe Basketball Is Exciting - When You Learn How To Watch And Yell

By Annetta Shelander

Why, now you can have two nights in a week for fun. Yes, football is over but basketball is just beginning. Whether you realize it or not, basketball boys and their coaches need your support.

Maybe you don't understand basketball or think it is not exciting. If you think that, here's a recipe for good enjoyment. On a Tuesday or Friday night get you a friend who knows basketball. Go to the Yoe High Gym (or some out-of-town gym). You pay only a small admission fee. Be sure to get there in time for the "B" game, too. That begins about 6:30 P.M. Then get a good seat in the

### Community Center Plans Approved

A Community room 80 x 46, rooms for the Girls and the Boy Scouts and a Library plus other rooms for meetings, offices etc. in some of the more pertinent facts in the building plans accepted by a 76 x 122 overall building are the Community Center Committee in a meeting at Denson Clinic Friday evening.

Building chairman Ben Magness and Narvie Caperton will begin work immediately on gathering figures on the cost of such items as air conditioning and heating and electrical supplies. Also concrete tile, Austin Stone and the like which will go into the proposed community center construction.

Magness and general chairman Dr. Charles Howard obtained the plans which were drawn for a building such as the committee had in mind from the city of Bertram. This town had the plans drawn for construction there and then scuttled them in favor of a \$40,000 hospital. This little town of 1,000 inhabitants, supported by agriculture, subscribed funds necessary to construct their hospital with non-interest bearing non-participating shares. In getting their plans for a community center which have now been approved for Cameron the town of Bertram held a contest among Texas A&M engineering students and awarded a \$50 prize to the winner.

A financial committee was left in the hands of chairman Howard with a list of recommended citizens for him to solicit for their

## Old Cotton Belt Assn. Points Out Vote Dilemma

Texas cotton farmers probably will vote in the national cotton referendum Dec. 13, without knowing either the county or farm acreage allotments for the 1956 crop.

The Old Cotton Belt Association and East Texas counties, say this unprecedented circumstance is the result of an injunction plea by four West Texas cotton growers in a federal district court at Houston.

The West Texas producers say the Texas Agricultural Stabilization and Conservation Committee is planning an acreage allotment program that would be a \$10 million loss to that region.

E.O. Lundgren of El Paso, president of the cotton association said the court action may not be settled in time for county ASC committees to inform farmers of their 1956 allotments.

The Old Cotton Belt Association, organized in March to fight for the return of acres "lost" to the newer growing areas as a result of past policies of the state ASC committee, is on record as endorsing the proposed acreage allotment formula.

While the allotment formula has not been officially released, the cotton association says that most growers in Central and East Texas will not suffer the 4 per cent allotment cut ordered for the state nor will they have to contribute acres to the "pool" that heretofore has been used to up West Texas acreage allotments on the basis of "trend."

The Old Cotton Belt of Texas has been the principal contender in the regional cotton fight. It claims to have developed the Stiles Formula, now known as the

Old Cotton Belt Association formula, the result of a year's research by John Vernon Stiles of Taylor. The Old Cotton Belt Association Formula, in turn, is the basis of the new acreage allotment formula which the state ASC committee wants to use but is now barred by the injunction plea.

"This will be a continuing fight," said President Lundgren, "and it will go on just as we have acreage allotments. To this time the smaller farmers, and even the large ones, in the older growing regions of the state have had no single-interest organization to help them."

Lundgren urged farmers to write or telegram the Texas Agricultural Stabilization and Conservation Committee at College Station. "We need to tell them we are behind them."

Citing the seriousness of the acreage allotment issue, Lundgren said that at least three members of the committee had received threatening letters from disgruntled growers.

"When a farm program comes to that," he concluded, "we ought to know that this is a real battle."

## Future Homemakers Train Future Husbands In Art Of Dishwashing

By Geraldine Davidson  
"Even washing dishes can be fun according to Geraldine Davidson. Beatrice Dehart, Betty Jane Shuffield and Norma Ruth Bowley in their evaluation of their last homemaking food preparation experience.

As a part of second year foods experiences girls are allowed to plan, prepare, and serve family meals to guests in the homemaking department. These four girls, called a class family, entertained five guests Wednesday evening, November 16, 6:30 p.m. with a family dinner of their favorite foods, meat loaf with gravy combination lettuce and tomato salad, buttered English peas, mashed potatoes, home made clover leaf rolls, iced tea, and coconut cream pie. Their guests were Barbara Coward who took pictures for the hostesses, Grady Gill, John Lawhorn, Patsy Veazey, and their teacher, Mrs. Whatley.

The table was set in its very best: a beautiful white cloth, white china, pastel flowers. The tea cart was placed by the hostess, Beatrice Dehart, with the pie, extra ice and tea. Betty Jane Shuffield acted as host and offered the thanks for the meal.

The real fun began when the girls lured the boys to the kitchen after the meal to see and learn to operate the new electric garbage disposal unit. The girls then put aprons on the boys and let

## Chicago Trips Won By Texas 4-H'ers

IMPRESSIVE records in the 1955 Dairy, Field Crops, and Safety programs, have won all-expense trips to the 34th National 4-H Club Congress in Chicago, Nov. 27-Dec. 1, for three Texas 4-H Club members.

Joe Weaver, 20, of Temple, will attend the Club Congress as state winner in Field Crops. His trip is provided by the Nitrogen Division of Allied Chemical & Dye Corp. Joe was able to achieve this recognition through careful attention to crop production practices, such as soil management, selection and treatment of seed, proper tillage and insect and disease control.

Joe has given demonstrations on Cotton Defoliation. He was first high individual. He gave the demonstration at the H & H Club at Texas A & M, and won second place.

He also won awards on his other projects. Since joining the club he has made seven radio and two television appearances.

Leah Ann Patton, 18, of San Antonio, is the 1955 State 4-H Safety winner. Her outstanding achievements have earned the General Motors trip award to the Club Congress.

During a six-year 4-H career, Leah helped make her community more safety conscious by means of surveys, demonstrations and other aids, under the guidance of Mrs. R. Cook, her local 4-H leader. Leah made her first safety survey in her own home and yard and was surprised to find so many hazards in a place she thought was safe.

She warns about faded labels on medicine bottles, tools left in the yard and stresses the importance of keeping guns locked in a special cabinet.

Leah has given four radio talks and has appeared eight times on television. One of her demonstrations was "Treatment for Snake Bites," and another on "Family Fire Control."

Ezekiel Grogan, 21, of Longview, is the 1955 State Dairy Winner. He will be a member of the Texas delegation to the Club Congress. Funds for the trip are provided by the Laro SureFeed Division of General Mills. A 4-H

All these programs are conducted under the direction of the Cooperative Extension Service.

Joe Weaver Leah Ann Patton

Ezekiel Grogan

Club member for 11 years, Ezekiel has an outstanding record in dairy production and management.

Ezekiel started his project in 1945 with one heifer. By 1955, he had enlarged his herd to 95 head, including 58 cows in production.

In 1948, the young dairyman took over the operation of the family farm after his father was disabled. He improved pastures, revised the crop rotation plan, and increased the number of livestock.

In 1951, Ezekiel, with the help of his brother, built a new dairy barn. A year later, he mortgaged his holdings and purchased 30 additional cows. He followed a careful culling program, and rented additional land to supply the needed feed.

In spite of the fact Ezekiel carries on a one-man operation on his dairy farm, he is getting his college education. He graduated from Kilgore Junior College in 1954, and that fall enrolled as a junior at Stephen F. Austin State College. He drives 150 miles a day to attend classes, and continues to operate his dairy.

**And so does the thrill  
- with Buick's new  
Variable Pitch Dynaflo!**

WITH ALL the big excitement of Buick's 1956 styling and power and ride and handling—it's easy to overlook this fact:

Gas mileage in the '56 Buicks takes a big step upward. One reason, of course, is the new power plant itself.

Every new Buick cradles an advanced 322-cubic-inch V8 engine with the highest horsepower, Series for Series, in all Buick history. Yet every engine delivers more efficiency, and more usable power to the rear wheels—because each one has a new double "Y" manifold, and a new high in compression ratio.

But the major reason for the happy news in gas mileage—and for the new step-up in safety and thrills—is Buick's latest version of Variable Pitch Dynaflo.

In this airplane-principled transmission, you always had a gas-saving cruising range—and, at a switch of the pitch, a full-power getaway range.

Now Buick engineers have brought to this cruising range what they call "double regeneration." It simply means a new way to make flowing oil add to its own velocity to build up driving force.

**LITTLE RIVER PHILOSOPHER FINDS OUT SOLUTION TO FARM PROBLEM WON'T BE ANY SIMPLE MATTER**

Editor's note: The Little River Philosopher on his Johnson grass farm on the Little River has been thinking about the farm problem again, but the problem is still here.

Dear editor: Secretary of Agriculture Benson has called on "everybody to send him some answers to the farm problem, so I brought the matter up at the meeting around a stove during the cold snap last week and here are some of the ideas I picked up, and Sec. Benson is welcome to them:

(1) "The whole trouble comes from ever letting farmers get prosperous in the first place. That is where the country made its big mistake. It's just hard to go back to the days of one-gallus farming when you have gotten used to living like other people."

(2) "The way to reduce the farm surplus is to cut out all this nonsense about reducing. Let the Department of Agriculture offer a prize for the woman in every town in the nation who gains the most in the next six months. You take right here in Milam county; if every woman really let go, the

to living like other people."

if every woman really let go, the

farm surplus would meet its match."

(3) "That won't do it. The way to reduce the surplus is to stop producing so much, and the way to do that is to abolish the tractor. The tractor is what enabled the farmer to produce four times as much as he used to. Get Congress to outlaw the use of the tractor, and in two years we won't have a surplus. Turn the farmer loose, let him produce all he can, provided he does it with horses and

(4) "Won't work. All it'd do is bring on a depression for the tractor manufacturers. The thing to do is put all the white-collar farm experts and professional agriculturists at work farming. Nothing will produce a scarcity faster than that."

(5) "What about this soil bank idea? Take a tenth of the land out of cultivation, build up the soil's fertility and hold it in readiness until the country's population doubles."

(6) "Won't work. It'd work all right maybe if you could get Mexico, South America, Brazil, etc. to join up, but you cut down on production in the United States and production on every scrap of land elsewhere on earth will be doubled. Every time the U.S. cuts production by 1 acre, Brazil steps hers up by 4."

As you can see, this area is pretty well divided on the solution to the farm problem, and if the rest of the country is in the same

shape, you can understand how it is hard for me to understand how anybody would want the job of finding an answer. Secretary Benson is welcome to his job, I don't think anybody out here wants it.

Yours faithfully,  
J.A.

Mrs. Carrie Oneal has returned to the home of her daughter, Mrs. Sidney Posey, 1317 Belin Drive, Jacinto, Texas for further treatment following a mishap in Cameron when she fell and broke her wrist.

## Future Homemakers Pursue High-minded Annual Program

The FHA King Of Hears contest is progressing nicely. The boy selected for this honor must be nominated by an FHA girl and then be approved by faculty and business men for these standards.

Be passing in all subjects; be interested in more than one activity in the school program and take active part in school affairs; be polite and courteous; use desirable language (Not necessarily perfect English); have a pleasing personality; be the kind of Yoe High School citizen that both teachers and students admire.

The boys whose names will be on the ballot this year are: Don Howard, Paul Hoelscher, John Burkes, Butch Polzer, Lawrence Tiller, Tom Collins, Paul Freeman Ray Green, Lee Hollas, Turner Newton, Monroe Bayer.

The boy who is selected will be honored and crowned at the annual FHA Christmas party.

One of the state FHA goals this year is making Texas flags. The Yoe Chapters are carrying out this goal under the direction of Gloria Boyles, chapter historian. Gloria has now completed one flag. Each FHA unit historian will continue working on others until a total of nine flags are made for this project.

This project was chosen because of the requests sent to the state office by boys in the service and people in other countries requesting Texas flags.

## Third ALCOA Scholarship Award At Rockdale Plant This Year

Twelve graduating high school seniors from four Central Texas high schools have been selected as candidates for the 1956 Alcoa Foundation Scholarship Award to be given to the son or daughter of an employee of Aluminum company of America's Rockdale works.

The twelve students were screened by a selection committee composed of school superintendents in the Rockdale area. They will take the College Board Examination on January 14, at the University of Texas. Results of the tests are considered along with scholastic achievement and promise, financial need, and personal characteristics such as leadership and ability. With these factors the selection committee determines the winner of the \$2000 scholarship to be awarded in the spring.

Candidates for this year's award are:

Herbert Lawrence Fedora, son of Mr. and Mrs. H. H. Dismukes of Caldwell.

Florence Frosch, daughter of Mrs. Clarence Frosch of Lexington.

Jerald Deene Wise, son of Mr. and Mrs. Ruben Dean Wise; and Carol Van Woods, son of Mr. and Mrs. Ripley Baxter Woods of Milano.

From Rockdale: Lois Ann Braun, daughter of Mr. and Mrs. Eddie Louis Braun; Helen Sue Blackmon, daughter of Mr. and Mrs. Vaughn Ray Blackmon; John Charles Harriss, son of Mrs. Flora S. Harriss; Barbara Ann Kirkpatrick, daughter of Mr. and Mrs. Evans Kirkpatrick; John Baxter Moore, son of Mr. and Mrs. J. M. Moore; Judith Maxine Mullendore, daughter of Mr. and Mrs. Ruel Leon Mullendore; Joeva Yvette Wenzel, daughter of Mr. and Mrs. Paul Alfred Wenzel; and Sandra Campbell Wertz,

daughter of Mr. and Mrs. Wilson Wertz.

The scholarship program was established by the Alcoa Foundation in 1954, and each year awards approximately 40 scholarships to children of Alcoa employees, representing 29 Alcoa plants and offices in 16 states and the District of Columbia.

The number of scholarships for each company location is based on the number of employees per plant, operating area, or company unit.

With its present personnel Rockdale Works is entitled to one scholarship per year. Each winner receives an annual grant of \$500 for four years, so long as scholastic and personal standards are maintained at a high level.

Winner of the first local scholarship award was Monte Lee Hyder of Rockdale. He is studying chemical engineering at Rice Institute in Houston.

Last year's scholarship award went to Vernell Frosch, daughter of Mrs. Clarence Frosch of Lexington. She is studying business administration at Southwest Texas State Teachers College at San Marcos.

To be eligible for the award, the student must be in the upper one-half of his graduation class or have a C-plus average or better during the time it takes him to obtain his high school diploma, whichever is lower.

This year's selection board is made up of Hinton H. Pruett, Milam County School Superintendent, chairman; and School Superintendents, W. T. Hanes, Cameron; J. W. Moorman, Rockdale; T. H. Johnson, Taylor; and A. P. Kleinschmidt, Lexington

period of 15 years.

## Uncle's Mail Pouch Brimming But Warns You To Mail Early

"It's time to start those Christmas mailings!" Postmaster John R. Hays warned today, launching his 1955 "Mail Early for Christmas" campaign.

"On the calendar it's a month away but here in the Post Office it's Christmas today - and every day until December 25th" he said. Extra mail carriers and office help have been secured, the delivery trucks serviced, Post Office inkwells filled and in fact everything is ready for the mammoth flood of Christmas mail that is expected to smash all records.

Postmaster Hays especially calls on housewives to help in his effort to deliver every package and Christmas card before December 25th. "The lady of the house," he emphasized, is really in charge of each family's Christmas mailing program. She selects the Christmas cards, buys most of the gifts and sees to it that the mailing list of friends and loved ones is up-to-date.

He recommends the following steps at once: Get out your Christmas card list and carefully check through it. Make sure that each address includes the full name, street and number, city, zone and state. Then, pay a visit to the Post Office, stock up on stamps (use three cent stamps on your Christmas cards for first-class mail service) and ask for copies of two new publications for patrons, "Packaging and Wrapping Parcels for Mailing" and Domestic Postage rates and Fees.

"You can do this in a leisurely way if you will come to the Post Office before 10:30 a. m. or between 1:30 and 3:30 p. m. thus missing the rush hours. On your way home pick up a supply of heavy wrapping paper, sturdy

empty cartons, strong cord and kraft paper adhesive type. A modest investment in these necessities will pay big dividends in safe delivery of your cherished Christmas gifts," the Postmaster said, adding that all packages should be mailed by December 10th.

## 'No-Name Jivers' Say Bon Voyage To Directress

The male quartet known as the "No-name Jivers" made up of Johnny Solomon, Jess Burkes, Paul Freeman and Emory Camp who sing each Tuesday afternoon on KML under the direction of the former Miss Shirley Horstmann honored their newly married directress with a tea at the home of Mrs. Emory Camp on north Harding in Cameron, Wednesday afternoon from 3:30 until 5:30.

The mothers of the four boys were co-hostesses with Mesdames John Davis, Hilliard Thomas Jr., Dewey McElwrath helping with the service. Miss Kay Camp directed the guests to the dining room during the party.

135 people enjoyed delicious de-

corated sandwiches, candy, and candied almonds which the hostess served with hot tea and coffee during the afternoon.

At 5:15 the "Jivers" who were hosts sang "Always" to the bride-elect.

In decorating, Mrs. Camp carried out a scheme of pink and silver. The dining table was centered with a beautiful three white bell arrangement on a silver cloth. The bells held pink and white rosebuds and white mums. Pink candles cast a lovely glow over the entire table setting. A silver service was used on the table in serving the tea and coffee. Pink brilliants centered with silver bells were set in appointments around the table cloth.

The fitted bodice of chantilly lace was designed with long sleeves, tapering to points over the wrists, and a high keyhole neckline.
